EHESS is recruiting a post-doctoral fellow for the laboratory centre of excellence LabEx TEPSIS.

**Recruitment level:** Category A

**Salary level:** €2,484 gross per month

**Full-time position (38h45 per week)**

**Discipline:** Social sciences of politics

**Field:** "Authoritarian regimes, war, political violence (Eastern Europe, Southeast Asia)" / « Régimes autoritaires, fait guerrier, violence politique (Europe orientale, Asie du Sud-Est) »

**Job location:** Raymond Aron Center for Sociological and Political Studies / Centre d’études sociologiques et politiques Raymond Aron (CESPRA, UMR 8036), Campus Condorcet - 2, cours des Humanités - 93322 Aubervilliers - France

**Commitment dates and contract duration:** From June 1st 2024 to August 31 2025 (15 months)

**WORKING ENVIRONMENT AND CONTEXT**

The Ecole des Hautes Études en Sciences Sociales (www.ehess.fr) is a public "grand établissement" with a mission of research in the humanities and social sciences, and research training. EHESS is home to 3,000 students, including 1,500 PhD students (with nearly 250 theses defended each year in all social science disciplines) and as many Master's students. EHESS is also home to 40 research units organized around a particular field, approach or, for a third of them, "cultural area". Within these units, more than 500 teachers and researchers develop knowledge, train and supervise master's and doctoral students. The École Condorcet is a founding member of the Etablissement public Campus Condorcet, whose mission is to promote scientific cooperation between its founding members, in particular by supporting their research programs, and to provide researchers and students attending the Campus with living and working conditions that meet international standards.

Winner of the second wave of Investissement d’avenir, the laboratory centre of excellence, LabEx TEPSIS (Transformation de l'Etat, Politisation des Sociétés, Institution du Social) comprises 15 social science research centers and the Centre de Formation des Journalistes (CFJ). The 15 Mixed Research Centers (unités mixtes de recherche, UMR) are listed on the LabEx tepsis.io website, along with the 300-plus researchers who are members. Based on a historical, sociological and philosophical exploration of the diversity of modes of political intervention in the city and in the space of societies, the LabEx's multidisciplinary approaches link the analysis of modes of government in modern and contemporary societies, and that of social practices that transform the forms of organization and regulation of human activities.

**MISSIONS**

**Collective tasks**

- The post-doc will work in full synergy with the members of the Raymond Aron Center for Sociological and Political Studies, mobilized on the corresponding theme;
- He or she will work in a constant perspective of interdisciplinarity and in liaison with the other post-doctoral fellows in the cohort (recruited on behalf of TEPSIS during the same period and assigned to other LabEx member units);
• In agreement with the CESPRA team, he or she will participate in the organization of research seminars, collective publications and the collective supervision of master’s and doctoral students.

**Individual search**

The researcher will develop original research in line with the above-mentioned field. Each research unit will provide further details of the proposed theme on its website.

**RESEARCH PROFILE**

- Hold a PhD degree in the social sciences obtained between July 1er 2021 and March 5 2024.

**HOW TO APPLY**

Applications must be submitted via the EHESS employment interface: https://recrutement.ehess.fr/ from February 5, 2024 to March 5, 2024 at 4pm.

Applications submitted on the application form must include the following documents:

- a CV
- a letter of motivation
- a research project focusing on the aspects the candidate would like to develop during the contract period (1100 words /6500 characters maximum)
- a copy of your academic PhD degree certificate
- thesis defense report (if available)

An automatic confirmation of receipt of the application will be sent by e-mail to the e-mail address entered in the form by the applicant (subject to subsequent verification of the admissibility of the application by LabEx TEPSIS).

After registering your application on the job interface, you are invited to send an electronic version of your doctoral dissertation to tepsis@ehess.fr to complete your application.

At the beginning of April 2024, the LabEx TEPSIS jury will examine the applications received from the fifteen research centers that make up the LabEx (corresponding to fifteen scientific profiles, including the abovementioned field specialization) and will select ten to form a cohort of post-doctoral fellows.

**For information on the project and the scientific expectations for the abovementioned field, please contact the Research Unit : https://cespra.ehess.fr/**
